March 2020 - Present

- Implemented and completed e-commerce/Single page applications.
- Performed quality control testing using **Jest/Enzyme**.
- Established remote deployment using **Digital Ocean** and storage using **AWS S3**.
- Leveraged knowledge in **MERN Stack, Git, Heroku and Debugging**.

### REMOTE INSTRUCTOR

2021 - Present

- Performs instructor sessions for over 150 students in Web development focused upon **MongoDB, Express, React, Node**. Maintains and processes assessments/coding challenges.
- Manages project development cycles with the help of **Google meet/Zoom** video conferencing.

### BACK END DEVELOPMENT

- Expert in building and testing API's using **Express.js, MongoDB and Mongoose**
  - Creating **CRUD** for the project entities using **Node.js, Express.js and MongoDB**
  - Proper authentication using **bcrypt** and hashing and generating JWT tokens for the users
  - Send mails and file to user and **DYNAMICALLY** stores there credential and information
- Hands-on experience in backend using Node.js and MongoDB**

## PROJECTS

### KEY COMPETENCIES

- Full stack JavaScript development.
- Proficiency in **MERN** Stack
- Rapid Application development
- Open source contributions
- Automating scripts using **NPM modules**.
- Technical tutoring via **blogs/webinars**.
- Async/Over communication

### EDUCATION

- BACHELORS (cont...)  
**LAHORE GARRISON UNIVERSITY**
- INTER  
**ASPIRE GROUP OF COLLEGES**
- MATRIC  
**NEW CANTT PUBLIC SCHOOL**

#### CHATAPP **Project URL: <https://chatenviro.com>**

MERN Stack application

1. Developed a chat application using **MERN stack** that allows users to have real time chats.
2. Integrated **Firebase Authentication, React Chat Engine pkg** for convenience
3. Incorporated **Nodemailer and CORS** for emailing and Cross OriginSecurity and deployed under **DigitalOcean**.

#### CODEZBIT **Project URL: [www.codezbit.com](http://www.codezbit.com)**

MERN and Django Web app

1. Developed a business application with **MERN and Django** to allow people to contact us for our services.
2. Put our previous project that we build before for showcase
3. Basically, this is the web app that is the business site which is from my internship in Jan 2022 it was a startup

#### SLEEVE MART **Project URL: <https://sleevevmart.netlify.com>**

React/Firestore Full stack application

1. Developed an e-commerce application using React users to buy apparel.
2. Integrated **Stripe** for payments.
3. Utilized **React, Redux, Firestore, Firebase Authentication**.

#### ALGOLOAD **Project URL: <https://algotload.herokuapp.com>**

MERN Stack application

1. Developed a full stack application using **React and Node** to searchtext based on the image uploaded by users.
2. Involved **Algolia Search Indexing** for Instant Search.
3. Integrated **JWT, Mongo Atlas, bcrypt** frameworks for Authentication and persistence.
